+1(513) 3021466

Software developer with 1 year of experience in HTML, Node, Bootstrap, JavaScript, PHP and ReactJS. Proven track record in delivering innovative solutions and enhancing user experiences. Adept at leveraging Git, Npm, and Visual Studio to streamline development processes.

Demonstrating flexibility dependability and creativity to problem-solving skills. While showing I can learn new technologies in the process.

Authorized to work in the US for any employer

## Work Experience

---

### Front End Developer

Kable academy-Cincinnati, OH

March 2021 to October 2022

- Worked on a big project for building the main landing page to be more interactive and visually appealing for the new students coming into the next semester cohort.
- Translated complex design requirements into interactive user experiences to promote customer and student engagement and drive web traffic.
- Employed HTML, CSS and JavaScript while leveraging React, and also learning a new language called PHP during the process.
- Built and tested application functionality to ensure a desirable user experience across all platforms.
- Optimized page elements to reduce loading time and debugged code to ensure cross-browser usability.
- Collaborated with other developers, designers, and project teams to ensure successful, on-schedule development and delivery of applications. Developed back-end components and integrated them with front-end applications.
